

Where Did That Wrench Go?

Join an airplane mechanic and learn how to perform an advanced pre flight after an aircraft has gone through a maintenance check, or had significant maintenance performed. General aviation accidents and fatalities can be avoided when pilots conduct an advanced preflight after maintenance. This presentation will help all pilots, from student to commercial; owner, renter or professional, plan and prepare your next flight out of maintenance. Feel free to download and read the attached documents prior this event to enhance your knowledge and understanding. This is a good opportunity to learn from others and share your experiences.

Directions: From Hwy 99, Merle Haggard Drive East to Airport Drive. South on Airport Drive to Skyway Drive.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
